

Linc Health Signs Two Island Hospitals

Holliston, MA - July 2, 2010 - Linc Health has entered into long term Clinical Engineering agreements with Martha's Vineyard Hospital and Nantucket Cottage Hospital. In separate but coinciding negotiations, the Linc Health sales team, led by Michael Keefe, successfully bid on clinical engineering services to the hospitals servicing the two major islands off the coast of Cape Cod, Massachusetts.

Linc Health, LLC (Linc Health) is the leading provider of high value engineering based services to the commercial healthcare industry. Linc Health's portfolio includes comprehensive Facilities Management, Clinical Engineering programs and other technical services. As a business-to-business productivity partner and a leader in technology process improvement services, Linc Health combines business, technology, and healthcare expertise under a single roof. Linc Health corporate offices are located in Holliston, Massachusetts.

Linc Health is a wholly-owned subsidiary of Linc Facility Services (LFS), a division of Linc Energy and Building Solutions (LEBS). The combined operations of LEBS provide on-site plant and facility management, infrastructure operations, and other support services in five (5) global market verticals as well as a mobile service force providing heating, ventilation and air conditioning (HVAC), lighting and electrical testing services, and a robust suite of energy management solutions. LEBS is headquartered in Alexandria, Virginia and is a member company of The Linc Group (TLG).

TLG is an organization of companies that deliver premier on-site facility operations and management services, mobile HVAC, lighting, electrical testing services, and bundled energy solutions to thousands of building owners and operators. Collectively, the TLG companies service more than 20,000 facilities in 45 states and in 16 foreign countries through a professional workforce totaling more than 4,100 employees. TLG is headquartered in Irvine, California.
